 and www.mhhe.com

A close-up, angled view of a document titled "Social Network Identity Card". The card features a blue header with the title in white text. Below the header is a black and white portrait of a man with dark hair and a mustache, wearing a suit and tie. The card is placed on a document with blurred text, including the words "Congratulations, you have been selected to participate in the digital phase of the Social Network Identity Card." and "This new ID standard can already be used for all your identification needs, including your driver's license, passport and other forms of ID issued by your government. The new Social Identification standard will make the process of identification faster, safer and more convenient." The word "IDBFA" is visible in large, bold, yellow letters at the top left of the image.

A logo for 'Social ID Bureau 2012'. The text 'Social ID Bureau' is in a large, pink, bubbly font with a black outline, slanted upwards. Below it, '2012' is in a smaller, white, sans-serif font with a black outline. The background is a blurred image of a person in a blue mask and white costume.

David Cameron: 'I am a feminist'

Prime minister changes mind about applying label to himself –
and reveals he is a huge fan of Breaking Bad

ROFL

WOMEN_IN_TECH

Tech != Technology ?

Why only certain technologies are called "tech"?

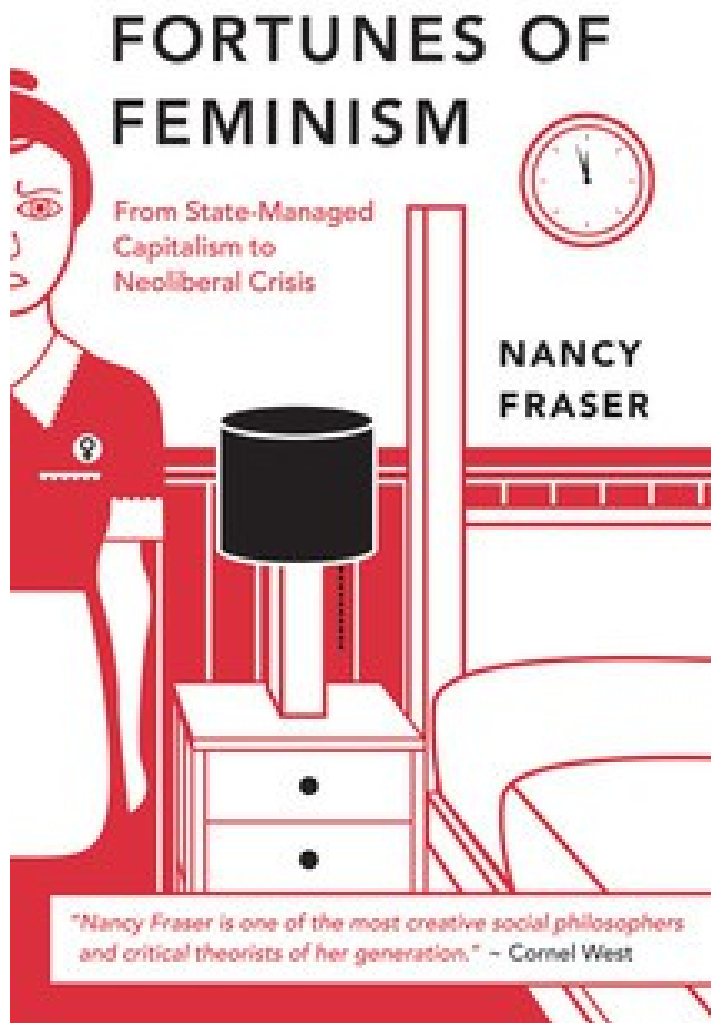

"Tech" has become its own thing, even though information Technology is only one type of technology.

Infocentrism + genderbait = Women in Tech

Tech is far away from screws and manual labor
Tech is cognitive, about your "career" and your "sucess".

FAILMINISM: Liberation of women as work is FUCKED UP :)

"A perspective aimed originally at democratising state power in order to empower citizens is now used to Legitimise marketisation and state retrenchment.

In all these cases, feminism's ambivalence has been resolved in favour of (neo)liberal individualism."

Nancy Fraser

WORK IS A TECHNOLOGY.
TECHNOLOGY IS ABOUT TRANSFORMING NATURE.
